Who should I contact in GIS?

Shannon Ennis, GIS Analyst; E911 Addressing and Street Signs

shannon.ennis@fauquiercounty.gov

Nick Ackley, GIS Analyst; Mapping Support and Services

nick.ackley@fauquiercounty.gov

Sam Cragun, GIS Specialist; Walk-in Mapping Support, Digital Data

sam.Cragun@fauquiercounty.gov

Dan Stell, GIS Director; All of the above services😊

dan.stell@fauquiercounty.gov

Who should I contact if the data is incorrect, or I don't understand what I am seeing?

GIS maintains all GIS data layers available to the public except for the **Parcel lines** and **Tax Owner Real Estate** and **Assessment data**. Parcel and owner data is extracted nightly from the Real Estate CAMA system and ingested into GIS for public usage, internal staff and online map services.

Please contact the Commission of Revenue if landowner/parcel line information is outdated or incorrect. What you see in GIS is based on recorded survey plats, meets and bounds and deeds. The county does its best to accurately represent the legal boundary and parcel sizing, but discrepancies can occur.

Addressing Issues & Street Signs – GIS
Data Layers and online TaxParcel Viewer mapping site – GIS

And if you don't know, just pick up the phone and call the GIS main line @ 540-422-8260 and we will direct you.

Coming soon....

- Revamped GIS Hubsite.
- New GIS Parcel Viewer – Enhanced Oblique Imagery and functions.
- Street Addressing and Road Naming Look-up.
- Imagery Over Time Viewer.
- District Look-up.
- Online Request Forms.
- And much more.....

Thank you 😊
